**Connect, Create and Move Days:**

Three days per year (October 31, February 15, and May 22) there is an opportunity to share a personal or professional passion you have with small groups of our students. During past CCM days we've been able to offer choices ranging from learning to play cribbage to learning to care for small farm animals and everything in between. Other volunteers help to relieve classroom teachers or support the facilitator with an extra set of hands. If you are interested in sharing a passion, please check below and include your idea. Thanks!
